REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant claims are neither disclosed nor fairly suggested by the prior art. The closest prior art is that of Bentham et al (US Patent No 6,680,334), which discloses a crystalline free base form of amlodipine which may be tabletted using microcrystalline cellulose or calcium phosphate. However, form I is not disclosed. Further, the document does not meet the effective filing date of the instant application. As such, the instant claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
